1st OPORTO CARDIOTHORACIC SURGERY COURSE (AVR with stentless and sutureless prosthesis)

February 10th 2018
Instituto de Ciencias Biomedicas Abel Salazar (ICBAS), Porto

COURSE DIRECTOR
Professor Miguel Guerra, M.D., Ph.D.

PROGRAM OVERVIEW

This workshop was specifically designed to teach surgeons how to effectively implant stentless and sutureless prosthesis so that they can return to their medical facility and perform 1 or ideally 2 cases within 10 days of attending this course (recommended maximum timeframe). This course will enhance the implant procedure and reduce the overall learning curve when performing valve replacement using the Solo Smart and Perceval aortic valve prosthesis.

Cadaver Lab:
Offering a very hands-on approach, cadaver laboratory allows surgeons the opportunity to refine their implantation skills through observation, and repetition.

Intended Audience:
This workshop was designed for cardiac surgeons. Maximum no. of participants allowed: 8.

Course Duration:
This is one day training program.

COURSE AGENDA

09:30 Arrival of attendees to ICBAS (Porto)
10:00 Meeting with Prof. Guerra and presentation
10:30 Sutureless aortic prosthesis implantation technique (video)
11:00 Cadaver Lab
13:30 Team Lunch All
15:00 Stentless aortic prosthesis implantation technique (video)
15:30 Cadaver Lab
18:00 Closure

FEE: 900€ (IVA included)
REGISTRATION DEADLINE: January 19th 2018
